

2016 Revolveproduct-pdf - Cabernet Sauvignon Rutherford Napa Valley - Unreal! Was \$75, today \$29 NAPA CAB!

Why We're Drinking It

Drop what you're doing if you love Rutherford Cabernet -- we have the steal of the year today, oh yes!

Let's cut to the chase:

- \$75 retail. Our price \$29!
- 2016 vintage (one of the greats!!)
- FREE SHIPPING on 4+ bottles
- Tiny-production, beautifully structured Rutherford Cabernet at a "daily drinking" price! How do we do it?

Living and working and growing up in Napa has its advantages. We delivered papers here, worked at wineries, all our friends are winegrowers, winemakers, and this gives us unique access to opportunities. THIS is one you DO NOT want to miss. WOW!!!

Revolve is a totally hands-on micro winery project started by two friends in 2008. Daniel Nice holds a PhD in Biochemistry and Molecular Biology from UC Davis. Winemaking inspires him for its particular blend of the scientific and the artistic creative processes. *"Creating something that people can enjoy in a physical, visceral way is very rewarding and humbling."*

Scott Sporte sees winemaking is an act of both creative and physical energy that can sometimes be lacking in an office environment. *"Finishing a harvest and processing day with sore muscles and a clean wet concrete floor provides a satisfying 'job well-done' finish."*

LET US regale you about the deliciousness of this classic 2016 Napa Cabernet -- sourced from a small vineyard in the Rutherford AVA, this wine provides aromas of black cherry and sandalwood. A complex tannic structure reveals fruit flavors of blackberry and black cherry, and cocoa with a smooth, velvety finish. Just wonderful, harmonious and utterly outrageous at \$29!

What can we say? We will sell out in a flash - first come, first served!

Tasting Notes

With Cabernet Sauvignon grapes sourced from a small vineyard in the the Rutherford AVA, this wine provides aromas of black cherry and cedar. A complex tannic structure reveals fruit flavors of blackberry, black cherry, and cocoa with a smooth crisp finish.

Cabernet Sauvignon

The Story to Know

"We are two friends who discovered a mutual interest in wine and winemaking and began making wine on a small production basis in 2008. Our passion for wine and constant innovation and improvement results in excellent wine in every bottle.

Daniel Nice holds a PhD in Biochemistry and Molecular Biology from UC Davis. Winemaking inspires him for its particular blend of the scientific and the artistic creative processes. *"Creating something that people can enjoy in a physical, visceral way is very rewarding and humbling."*

Scott Sporte sees winemaking is an act of both creative and physical energy that can sometimes be lacking in an office environment. *"Finishing a harvest and processing day with sore muscles and a clean wet concrete floor provides a satisfying 'job well-done' finish."*
